

CCI 421.02
EFFECTIVE DATE: 28 JUNE 2016

By Order of the Acting Assistant Secretary for Health:

Karen B. DeSalvo, MD, MPH, MSc

SUBJECT: Uniforms for Female Officers

1. PURPOSE: This Instruction prescribes the various uniforms, uniform articles, and uniform accessories to be worn by female officers of the Commissioned Corps of the U.S. Public Health Service (Corps). This Instruction also provides information on prescribable and optional uniform components, occasions for wearing the uniform and uniform requirements.
2. APPLICABILITY: This Instruction applies to female Corps officers on active duty.
3. AUTHORITY:
 - 3-1. [42 U.S.C. §216\(a\)](#), "Regulations"
 - 3-2. [42 U.S.C. §217](#), "Use of Service in Time of War or Emergency"
 - 3-3. [42 U.S.C. §238g](#), "Wearing of Uniforms"
 - 3-4. [18 U.S.C. §702](#), "Uniform of Armed Forces and Public Health Service"
 - 3-5. [Executive Order 11140](#), "Delegating Certain Functions of the President Relating to the Public Health Service"
 - 3-6. [68 FR 70507](#), "Statements of Organizations, Functions, and Delegations of Authority"
 - 3-7. Commissioned Corps Directive 131.01 ([CC46.3.1](#)), "Uniform Regulations"
4. PROPONENT: The proponent of this Instruction is the Assistant Secretary for Health (ASH). The responsibility for assuring the day-to-day management of the Corps of is the Surgeon General (SG).
5. SUMMARY OF REVISIONS AND UPDATES: This is the fourth issuance of this Instruction within the electronic Commissioned Corps Issuance System (CCIS) and replaces Commissioned Corps Instruction CC421.02, "Uniforms for Female Officers," dated 29 April 2014.
 - 5-1. Addition of optional wear item – Skirt, Blue, Unbelted – to the Dinner Dress Blue and White Jacket Uniform.

6. POLICY: All officers, except officers participating in the Junior Commissioned Officer Student Training and Extern Program (COSTEP) and in the Senior COSTEP, shall maintain all required components of the Service Dress Blue (SDB) and the Operational Dress Uniform (ODU). In addition, officers are responsible for buying and maintaining other uniforms as required by their prescribing authority. There is no minimum number of uniforms required to be in an officer's possession. Sufficient quantities of uniform items shall be procured and maintained in order to assure the highest possible standard of personal hygiene and appearance.

Except as may be authorized by regulations of the President, the insignia and uniform of commissioned officers of the Service, or any distinctive part of such insignia or uniform, or any insignia or uniform any part of which is similar to a distinctive part thereof, shall not be worn, after the promulgation of such regulations, by any person other than a commissioned officer of the Service.

6-1. Operational Dress Uniform (ODU); General Authorized Uses. The National Uniform Authority (NUA) may authorize wear of the ODU in any of the following situations:

- a. Emergency preparedness or response activities, including field exercises, planned or emergency responses, Department of Health and Human Services (HHS) emergency-response-related exhibits, HHS emergency-response-related recruiting, and training for operations as determined by the NUA, such as:
 - (1) Exposure to harsh elements, e.g., high temperatures, cold, or precipitation;
 - (2) In dirt, water, or mud;
 - (3) Where other types of uniforms would become unreasonably soiled or unkempt and require daily cleaning; or
 - (4) In indoor settings where officers will or could be working in dirty settings, e.g., partially destroyed buildings, or on the floor of a building, e.g., kneeling beside patients on stretchers.
- b. Exercises or operations that are conducted jointly, or in the same environment with, other branches of the Uniformed Services when the counterpart uniforms of the other Services are being worn by their service members. The NUA shall prescribe an ODU that is in accordance with the directives of the commanding officer-in-charge (OIC) of a joint exercise or operation when such a directive can be obtained in advance. In circumstances in which such a directive cannot be obtained in advance, or when an operation is in the same environment but not a joint operation, the NUA may prescribe the ODU independently.
- c. Activities where personnel safety (from physical or environmental/weather conditions), durability, and appearance make other uniforms inappropriate, e.g., vehicle maintenance, environmental sampling in muddy conditions, construction or correctional institutions.
- d. Special HHS or Joint Services event, e.g., a salute to returning forces ceremonies or awards ceremonies, in which Corps officers are attending or participating. In Joint Services event, the ODU is authorized only when other Uniformed Services will wear their equivalent uniform. In HHS-only events, the event must be an emergency-response or austere environment-related ceremony, otherwise the ODU wear must be approved by the SG.
- e. An officer may wear the ODUs daily as defined by the NUA or LUA.

- f. Other Uses. For uses, other than those listed in section 3, an Operating Division (OPDIV), Staff Division (STAFFDIV) or non-HHS organization LUA must request authorization from the OSG.
- g. The U.S. Flag patch is not authorized on the ODU.
- h. The nametape and USPHS ID tape will be gold letters on ODU blue cloth tape. Direct embroidery is not authorized. The nametape will be worn flush above the right front shirt pocket. The USPHS ID tape will be worn flush above the left front shirt pocket. The nametape may also be worn flush above the right rear trouser pocket. Tapes must not be shorter than or extend beyond the width of the respective ODU pocket.
- i. Up to 2 authorized skill badge patches are authorized for wear. Each badge patch shall be worn centered, ¼" above the USPHS ID tape or if 2 skill badge patches are worn, ¼" above the lower badge patch on the ODU front left shirt pocket. The Field Medical Readiness Badge (FMRB) patch shall be folded and sewn in a manner to form a square. If the FMRB patch is worn, it shall be worn above the lower badge patch. Direct embroidery is not authorized. Skill badge patches must be in the appropriate thread color by the issuing entity on an ODU blue background tape. Olive drab or other non-ODU blue background tapes are not authorized.
- j. Identification Badges. The Officer in Charge miniature metal identification badge may be worn ¼ inch above nametape, if authorized for current wear. No other identification badges are authorized for wear.
- k. The Special Unit Identification Patch may be authorized by the OSG only. Special patches shall be of the subdued, embroidered type with a basic ODU blue background and shall not exceed 3½ inches in the greatest dimension. Special unit identification patches shall be worn on the ODU blouse centered on the left breast pocket. The current olive drab Special Unit Identification Patch is not authorized on the ODU.
- l. Manner of Wear. The ODU is designed for field wear and should be loose fitting and comfortable. Alterations to make it form-fitting are not authorized. The ODU shirt will be worn outside the trousers, not tucked in, and all buttons will be buttoned except for the collar button; the collar is worn open. The sleeves may be rolled up when allowed by the LUA. When the sleeves are worn rolled up, the outside of the ODU material will remain exposed. The trousers are worn bloused over the top portion of the boots. The trouser legs will not be wrapped around the leg so tightly as to present a pegged appearance. Loose threads must be trimmed from all uniform components. Boot laces must be secured in a manner such that no loops are created; ends of the laces must be tucked into the boots. Spider lacing or use of non-black boot laces is not authorized.

7. RESPONSIBILITIES:

- 7-1. The ASH is responsible for establishing policies related to uniforms.
- 7-2. All officers are responsible for adhering to the guidelines and procedures listed in this Instruction.
- 7-3. Supervisors and chain of command are responsible for enforcing uniform standards as provided in policy.

8. PROCEDURES:

- 8-1. The dinner dress uniforms are available in both dinner dress 'regular' and 'jacket' versions. The jacket versions have the word 'jacket' as part of the designation. The jacket versions are more formal than the regular versions. They use a dinner jacket, while the regular versions use the service dress coat. Officers at the O-4 rank and above shall use the jacket versions. Junior officers in the ranks of Ensign through Lieutenant (O-1 through O-3) may wear the jacket versions but may not be required to do so.
- 8-2. The fabric of service dress coats and uniform shirts should match that of the trousers or skirt. When a particular fabric is worn, the belt and cap cover must be of matching fabric. A vinyl cap cover is optional.
- 8-3. The Service Khaki uniform is made of CNT or polyester/wool.
- 8-4. Clothing articles must meet the Army, Navy or Coast Guard specification for the applicable item. For example, the trousers of the SDB must be of approved design, style and materials not merely correct color. Articles purchased from Navy uniform shops, including the Uniform Support Center in Chesapeake, VA <http://www.navy-nex.com/uniform/u-contact-us.html>, can be assumed to be approved. Each article purchased from commercial, non-governmental sources should have a certification and/or a military specification tag sewn into the garment.
- 8-5. Officers assigned to patient care or laboratory areas may wear a suitable lab coat over the uniform when required to perform assigned duties. However, the lab coat may not be worn over the uniform outside the immediate place of work and any covered area associated with that location. See [CC26.3.7](#), "Special Uniform Situations," for more guidance on protective clothing.
 - a. Scrub attire may be worn when gross contamination by bodily fluids is likely to occur (i.e., operating room, labor and delivery, emergency department or laboratory settings). However, if scrub attire is worn in a duty station as authorized by the local uniform authority (LUA), the prescribed uniform of the day must be worn to work and upon termination of duty for the day.
 - b. Routine clinical office activity does not require scrub attire.
- 8-6. When wearing Dinner Dress, Ceremonial Dress or Service Dress uniforms, all authorized ribbons and/or appropriate sized medals as annotated in an officer's Official Personnel Folder (OPF) are required to be worn. When wearing service uniforms (i.e., Summer Whites or Service Khaki), an officer has the option to wear all authorized ribbons or the option to wear the top 3 highest awards, as annotated in an officer's OPF.
- 8-7. The sleeves of the ODU may be rolled up (accordion style, with only the cuff showing) or down. This is the same as the manner of wear by the Coast Guard and Navy. The rolled sleeve width will be approximately 3 inches and centered on the mid-to-lower third of the upper arm. The rolled sleeves will not be below the elbow.
- 8-8. In the Appendix, each uniform is accompanied by four Subsections:
 - a. Required Basic Uniform Components identifying each of the elements of the particular uniform that must be owned, and worn as appropriate to make the uniform complete;
 - b. Prescribable Items are uniform items which may be directed or authorized for

wear with the basic uniform. Prescribable items may be worn with basic uniform at the individual's discretion unless otherwise directed;

- c. Optional Items Uniform items purchased at the wearer's expense, which may be worn with the basic uniform, but which are not prescribable. Optional items may be worn with the basic uniform at the individual's discretion unless otherwise directed; and
- d. Occasions for Wear identifying the kinds of situations where a particular uniform may be appropriate. Note, however, that the LUA, not the officer, determines which uniform(s) is to be worn as the uniform of the day or for other circumstances.

8-9. Definitions:

- a. Conspicuous. Obvious to the eye, attracting attention, striking, bright in color. Should blend with (not stand out from) a professional appearance in uniform. What is conspicuous on one person may not be noticeable on another. If attention is naturally drawn to or distracted from the professional appearance, it is conspicuous.
- b. Conservative. Not conspicuous or detracting from the professional appearance while in uniform.
- c. Faddish. A style followed for a short period of time with exaggerated zeal. Styles are enduring; fads are generally short in duration and frequently started by an individual or event in the civilian community. Fads are generally conspicuous and detract from a professional appearance.
- d. Compliments Skin Tone. A conservative color which contributes to the wearer's natural skin tone. Conservative colors are generally inconspicuous and do not detract from a professional appearance in uniform.

8-10. PHS Sword. The sword utilized by the Corps is a sword in the general style of the U.S. Army Model 1860, Staff and Field Officers' Sword.

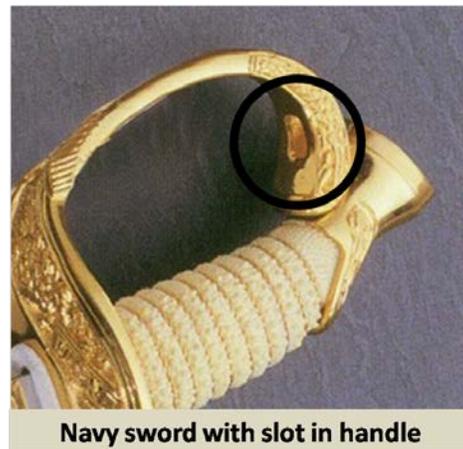

- a. Pommel, Grip-socket, Ferrules, and Guard. The pommel, grip-socket, ferrules, and guard shall be die struck or cast bronze, evenly plated with 24K gold. All designs shall be clearly defined and shall conform to the military specifications and illustrations shown in the Appendix A. All smooth surfaces shall be polished to a bright finish. The pommel, grip-socket, ferrules, and guard shall be free from blow holes, cracks, fractures, oxidation or other irregularities in the metal.
 - (1) Pommel. The pommel shall be circular in shape, approximately 1-1/8" in diameter, with sixteen conical flutes radiating from its center.
 - (2) Grip-socket. The grip-socket shall be an inverted truncated cone: the obverse side ornamented by the Corps Device in high relief, positioned so that the staff of the caduceus is vertical; the reverse side bearing a five-pointed star, in high relief. Each ornament shall be of a size to be inscribed in a circle 3/4" in diameter.
 - (3) Ferrules. Ferrules shall be continuous bands of metal 1/2" wide, decorated as illustrated in Appendix A.

- (4) Counter guards. The obverse and reverse counter guards, as illustrated in Appendix B, shall be kidney shaped, with the obverse larger at its long axis than the reverse. The obverse counter guard shall be ornamented by the Corps device between sprays of laurel. The reverse counter guard (either spring hinged or permanently fixed in the turned down position) shall be ornamented by a trophy device.
- b. Grip. The grip shall be made of bleached sharkskin, white pebble finish, or molded, therm-setting plastic. There shall be a continuous gold-coated wire (or three continuous gold-coated wires) wound spirally on the surface of the grip to form 13 (plus or minus 1) evenly spaced bands. A wooden form, properly turned, may be used as the base of the grip.
- c. Blade. (See Appendix C) The blade shall be of high carbon tool steel or stainless steel and shall meet with military standards. It shall be straight, tapering, double-edged, diamond shape in cross section, with a base 5/8" to 11/16", length 29" to 32", etched decorations will include the Corps device on each side. The obverse side will have a panel to contain the officer's name. The reverse side will have a panel to contain the inscription, "United States Public Health Service." The etching shall begin 1-1/16" from the hilt and extend 15-9/16" from the hilt.
- d. Hilt Guard. A piece of white felt or leather 1/8" thick shall be slotted to fit the hilt.
- e. Scabbard. The scabbard shall be made of sheet steel 0.040" to 0.065" thick, rolled, formed, and welded; or of stainless steel tubing 0.040" to 0.065" thick. The scabbards shall be constructed in lengths and inside dimensions as necessary to provide a proper fit for the sword.
 - (1) Liner. There shall be two pieces of balsa wood or sulfur-free fiberboard inside the scabbard extending from the hilt to within 3" (plus or minus 1/2") of the toe of the scabbard.
 - (2) Cover. The scabbard shall be covered with black calfskin, Morocco leather, or a suitable synthetic material. Leathers shall be 2-1/2 ounces in thickness and shall be full grained and smooth finished.
 - (3) Bands, Mounts, and Rings. Scabbards shall have three bands: a top band or throat, a middle band, and a distal band or tip. Scabbards shall also have two star mounts with rings and a shoe mount. Bands, mounts, and rings shall be formed of cast bronze or formed in one piece by stamping and then evenly plating with 24K gold (see illustration, Appendix D). The bands shall be held in place by one or more screws which shall be placed inconspicuously.
 - (a) Top Band. The top band shall have a lip at the throat, a five-pointed star mounted on the obverse side between two attached free-turning rings. The center of the star shall be 1-13/16" from the distal end of the band and 2-7/16" from the proximal end. The band shall be suitably engraved.
 - (b) Middle Band. The middle band shall have a five-pointed star mounted on the obverse side adjacent to one free-turning ring. The center of the star shall be 1-3/8" from either end of the band. The band shall be suitably engraved.

- (c) Distal Band. The distal band or tip shall have a shoe guard, or drag, mounted around its end. The guard shall be firmly brazed to the band, or the entire mount shall be stamped as a single unit. The distal band shall be suitably engraved.
 - f. Sword Case. Each sword and scabbard shall be provided with a cotton flannelette case to fit the assembled sword and scabbard. The fabric shall be vat-dyed silver or gray, and shall weigh approximately 4.0 ounces per square yard and shall be evenly napped on one side. The case shall be made with a strip of cotton tape approximately 1/2" wide inserted at the seams and hem for closure. It shall be of the necessary length and width to provide proper fit for the sword and scabbard.
- 8-11. Sword Wear and Accessories.
- a. The sword and accessories may be worn as part of the Full Dress Blue or White uniforms.
 - b. Proper Wear.
 - (1) The sword belt is worn under the Full Dress Blue or White coat with strap and hook passing through the opening provided on the left side of the coat. Belt straps are snapped to rings on the sword scabbard and upper ring is hooked to the belt with sword hilt to the rear.
 - (2) When wearing an overcoat (bridge coat) with Full Dress Blue, the sword goes through the slit in the overcoat and the lower loop goes through the back vent in the coat and the sword attached - same as Full Dress Blue.
 - (3) A sword is not worn with the All-weather coat-blue.
 - (4) When the sword is worn at a military funeral, a mourning badge that is 3" wide and 20" long, knotted in the middle at the sword hilt, shall also be worn. A mourning badge is made of black crepe material.
 - (5) The swords handle faces aft (to the rear) when properly worn.
 - (6) A sword is not routinely worn in a house of worship.
 - c. Description.
 - (1) Sword Belt. Two sword belt styles are authorized:
 - (a) The traditional sword belt is made of plain black grain leather, or synthetic material presenting the same appearance, 1-3/4" wide, with sling straps of the same material, 3/4" wide. The buckle and mounting are gold plated with the buckle 2" in diameter.
 - (b) The new shoulder sword sling consists of white cotton webbing with sliding shoulder pad, an adjusting buckle, and a sword attaching ring. The sling is worn beneath the coat, over the right shoulder extending across the torso, or over left shoulder, with the ring attachment over the top of the left hipbone, at a point where the sword slit is located in the coat. The sling is worn so that the ring attachment protrudes through the sword slit of the coat, but so that the white webbing is not visible from the

outside.

- (2) **Sword Knot.** This article shall consist of a loop of 1/2" gold lace, 24" long with slide and tassel. The Navy sword knot is the only authorized knot for the PHS sword. [Note: Past instructions for attaching the sword knot were based on the Navy sword which has a slot in the top of sword handle near the pommel through which to pass the knot lace]. The PHS sword does not have a slot in the handle and so the sword knot cannot be attached to the PHS sword in the same manner as the Navy sword. The following illustrations show a comparison between the handle of the PHS and Navy sword showing the slit in the handle of the Navy sword.

- (a) **Preparing the Sword Knot for the PHS Sword.** While holding the blade handle to the left create a loop in the end of the lace with the loop going around the pommel of the hilt as illustrated below. When forming the initial loop of lace the suspended lengths should be somewhat disproportionate. (One end should be 1/4" - 1/2" longer than the other.)

- (b) After tightening the loop of lace around the pommel of the hilt adjust the lace slide to keep the loop tightly in place as illustrated below:

- (c) Take three or more additional turns of the lace around the handle starting the first turn from behind the handle. Upon completion, the lace should lie over the top of the handle and the knot should hang free as illustrated below:

Year-round wear at all official functions or situations where formal dress, dinner dress, or full dress uniforms are not prescribed and male civilian equivalent dress is coat and tie. The Reefer,

All-weather coat and/or the Overcoat (Bridge Coat) will not be worn with only the white dress shirt. The Army cardigan shall not be worn outdoors. When outdoors, the SDB coat, Navy Sweater or Windbreaker jacket must be worn. Black garrison cap (BGC) will not be worn with the SDB Coat. The BGC may only be worn when wearing the Navy Sweater or Windbreaker Jacket outdoors.

Note: For purposes of uniformity, Department of Health and Human Services Operating Division (OPDIV) and Staff Division (STAFFDIV) Heads may prescribe the officers under their jurisdiction wear the SDB uniform for ceremonial occasions or for other appropriate circumstances on a specific day and for a specific reason. They may also require that female officers must wear the slacks in lieu of the optional skirt, and oxford shoes in lieu of pumps. However, OPDIV/STAFFDIV Heads are not authorized to issue general or blanket directives concerning other uniforms.

¹White gloves may (when required) be worn or carried with uniforms. Gloves are to be removed to shake hands.

Appendix (continued)

Description and Correct Wear of Female
Officer Uniform Components

NOTE: The item references are alphabetically listed following the illustrations.

BELT, SWORD, PHS

- a. Description: There are two sword types that are authorized. The traditional sword belt is made of plain black grain leather, or synthetic material presenting the same appearance, 1-3/4 inch wide, with sling straps of the same material, 3/4 inch wide. The new shoulder sword sling consists of white cotton webbing with sliding shoulder pad, an adjusting buckle, and a sword attaching ring. The sling is worn beneath the coat, over the right shoulder extending across the torso, or over left shoulder, with the ring attachment over the top of the left hipbone, at a point where the sword slit is located in the coat. The sling is worn so that the ring attachment protrudes through the sword slit of the coat, but so that the white webbing is not visible from the outside.
- b. Correct Wear: Wear the sword belt under the coat. The short belt strap and lock swivels are passed through the coat opening on the left side and the longer strap hangs free. Hold the sword with the right hand and attach the back swivels to the scabbard rings. Twist the sword one half turn in a clockwise direction and suspend on the sword hook with the uppermost scabbard ring. The sword's handle faces aft when properly worn. When wearing an overcoat with Full Dress Blue, the sword goes through the slit in the bridge coat and the lower loop goes through the back vent in the coat and the sword attached – same as Full Dress Blue. A sword is not worn with the All-weather Coat.

BELT, RIGGERS, BASIC

- a. Description: Belt is a 1 3/4" black nylon belt
- b. Correct Wear: The tip end shall extend 2-4 inches past the belt buckle on the wearers left. The basic riggers belt comes in one length and needs to be cut to size. Since the end to avoid unraveling.

Appendix (continued)

BELT, WITH GOLD CLIP

- a. Description: Plain cloth or webbing of the same color and material as the uniform, 1 inch wide for women, and fitted with a gold anodized clip. A cotton or nylon web belt may be worn with all uniforms. If a cloth belt is worn, the fabric shall match the uniform.
- b. Correct Wear: Wear the belt through all loops with the clip end to the left of the buckle prior to inserting the clip end into the buckle. Females wear the belt clip to the RIGHT of the buckle when worn.

BELT, WITH SUBDUED BUCKLE

- a. Description: 1¼ inch wide web or woven elastic web belt of black color with a black clip.
- b. Correct Wear: Wear the belt through all loops with the clip end to the left of the buckle prior to inserting the clip end into the buckle. Females wear belt with clip to the RIGHT of the buckle.

BERET

- a. Description: A black, semi-rigid, feminine style beret.
- b. Correct Wear: Wear the beret toward the back of the head, approximately 3/4 inch from the forehead hairline, and tilted slightly to the right. Align miniature-sized cap device insignia above the left eye. Beret is not worn forward on the head, nor covering the forehead.

Note: Beret will phase-out and will no longer be authorized on 1 January 2020. Officers will not be able to obtain new berets from the Navy Exchange after 1 October 2015.

Appendix (continued)

BOOTS, COMBAT.

- a. Description: Black leather boot or brushless black, with a plain or capped toe, the uppers 8-10 inches in height, and a black vulcanized rubber outer sole. Boots may be made of leather, leather and fabric (only black fabric is authorized, commonly called "jungle boots") or black brushless suede. Boots with patent leather finish are not authorized. Inner steel toes and zipper closures are authorized as optional. The overall design and construction of the boots must make them durable, functional and suitable for field wear. Black boot laces are required. Spider lacing or other non-standard lacing designs are not authorized.
- b. Correct Wear: Lace from inside out through all eyelets and tie. Keep clean, polished, and in good repair. Spit shine is not required.

BOOTS, SAFETY, BLACK

- a. Description: Leather boots, in lace style, plain toe with no decoration. Must have a hard box or safety toe and be water resistant. Outsoles are constructed from heat and flame resistant nitrile rubber. Chukka (non-lace) shoes are not authorized.
- b. Correct Wear: Lace from inside out through all eyelets and tie. Keep clean, well blackened and in good repair.

BUCKLE

- a. Description: Either a plain, gold anodized Navy buckle or a gold, anodized buckle which is the same size as the plain, Navy buckle and decorated with the Corps miniature cover device or the ship buckle of a previous sea command/squadron may be authorized for optional wear. Silver buckles are not authorized.

Appendix (continued)

- b. Correct Wear: Wear the buckle so that the belt clip end touches the RIGHT side of the buckle so that no material shows between the clip end and the underlying buckle. Align the left side of the buckle with the opening of the shirt forming a straight line. A decorated buckle may not be worn when a buckle is required with either a ceremonial or formal uniform.

BUCKLE, CEREMONIAL, PHS

- a. Description: The buckle and mounting are gold plated with the buckle 2 inches in diameter.
- b. Correct wear: Centered on the wearer on the PHS Sword Belt.

CAP, BALL, COMMAND, BLUE

- a. Description: The cap shall be a conventional baseball cap style made of 100 percent polyester, polyester/cotton, or a polyester/wool blend of the USCG specified color and weight "U.S. PUBLIC HEALTH SERVICE" shall be embroidered using ½-inch-high letters in an arch across the top of the front panel. Centered under "U.S. PUBLIC HEALTH SERVICE" is the small, bright direct embroidered rank insignia. All lettering shall be in upper case Arial (or equivalent) print. Visor ornamentation (in the style described for the combination cap visor in [CC26.3.6](#), "Insignia and Devices") is authorized for O-5 rank and above.
- c. Correct Wear: Wear squarely on the head, with the bottom edge parallel to the ground and approximately 1½ inches above the eyebrows. When wearing the O-6 rank device insignia, the eagle will look to the wearer's right.

Appendix (continued)

CAP, ALTERNATIVE COMBINATION, WHITE, KHAKI

- a. Description: A military cap with black visor, rigid standing front, flaring circular rim and black cap band worn with detachable khaki or white cap cover. When wearing the all-weather coat, the clear plastic combination cap rain cover may be worn. The Alternative Combination Cover is similar to the standard male Combination Cover except the crown of the cover is not as wide.
- b. Correct Wear: Wear the cap squarely on the head, with the bottom edge parallel to the ground and approximately 1½ inches above the eyebrows. The cap is worn so that hair does not show on the forehead. The cap is authorized for wear with the Dinner Dress Blue Jacket, or Dinner Dress White Jacket uniforms only when outer garment is worn.

CAP, COMBINATION, WHITE, KHAKI

- a. Description: A military-style cap with black visor, circular brim with rigid upsweep sides and black cap band worn with detachable white or khaki hat covers that match the corresponding uniforms. When the All Weather Coat is worn, the clear plastic, combination cap rain cover may be worn. For visor ornamentation and cap insignia, see CC26.3.6, "Insignia and Devices."
- b. Correct Wear: Wear cap squarely on the head, the bottom edge parallel to and approximately 1½ inches above the eyebrows. The cap is worn so that hair does not show on the forehead. The cap is authorized for wear with the Dinner Dress Blue Jacket, or Dinner Dress White Jacket uniforms only when outer garment is worn.

This version of the Combination Cover will phase-out and will no longer be authorized on 1 January 2020. This cover may not be acquired from the Navy Exchange after 1 October 2015.

CAP, GARRISON, BLACK or KHAKI

- a. Description: Made of material matching the uniform with which it is worn. The black garrison cap is only for wear with the SDB without the SDB coat and with the Navy Sweater or Windbreaker Jacket. There is no gold piping on either cover. For cap insignia placement see CC26.3.6, "Insignia and Devices."

Appendix (continued)

- b. Correct Wear: Wear the cap squarely on the head, with fore and aft crease centered vertically between the eyebrows. The lowest point of the cap is approximately 1 inch above the eyebrows. Hair is not visible below the front of the cover. The material of the cap must match the material of the uniform. When stowed on the hip, the garrison cap will be placed under the belt in front of the belt loop on either side pant pocket. If worn on the right side, the miniature rank device will be visible. If worn on the left side, the miniature cap device will be visible.

CAP, KNIT (WATCH), BLACK

- a. Description: Made of plain non-decorated or design as utilized by the U.S. Navy, closely knitted, bell shaped, pullover style, 11 to 12 inches long, 8-1/4 inches wide at bottom, with 5/8 inch border.
- b. Correct wear: The watch cap will be double folded approximately 2-1/2 inches - 3 inches, and worn diagonally from the base of the back of the head, across the ears and on the forehead. Rank insignia is not authorized to be worn on the watch cap. Commercial designs or logos are not authorized. Worn only with an outer garment in foul weather.

CAP, UTILITY, 8-POINT

- a. Description: ODU Blue, Navy-style cap with eight sides and firm bill, plaited sides and a high front panel.
- b. Correct Wear: Worn squarely on the head, with bottom edge parallel to the ground and approximately 1 1/2 inches above the eyebrows. When wearing the O-6 rank insignia, the eagle will look to the wearer's right. Pin on large bright metal rank insignia centered on the front panel. There is no visor ornamentation for ranks O-5 and above.
