**PharmPAC Perspectives Newsletter**
- Review new issues. (Quarterly)
- Volunteer to submit articles to the Communication Section (Whenever you can!)

**PharmPAC Meetings/Minutes**
- Review previous minutes (Monthly)
- Attend future meetings when possible. (First Thursday of the month at 1400 EST)

**Annual Physical Fitness Test (APFT) – Go to the APFT Initiative Website**

**USPHS Awards (Annually, generally in March)**
- Nominate eligible officer(s), submitting all material as ONE PDF document to the Administration Section
Chief Professional Officer:  RADM Pamela Schweitzer

- Welcome back from the holiday! Everyone involved in the PharmPAC and in the Surgeon General’s Office appreciates all the hard work put forth to help improve the health of our country. It’s an important time to spend with family and “walk the talk” regarding wellness and mental health. These times should be spent with family and helping others. It’s important to take an opportunity to give back to the community; it’s rewarding and it’s what the holidays are about.
  - Headquarters went out and got feedback from various stakeholders. As a result, they will be working on changes over the coming months and will be going through some reorganization efforts. There is an effort to secure more funding to help provide better support to Commissioned Corps officers.
  - We had a record number of abstract submissions for COA this year. I was pleased to see how many people are interested in presenting; kudos to everyone involved in submitting something. We should have a really good meeting in Oklahoma in May.
  - Provider status continues to move forward and it’s getting close. It is believed that there are enough votes for it; it’s just a matter getting in prepared and packaged for a vote.
  - APhA House of Delegates has a meeting coming up in Baltimore. Delegates have been selected but we are opening it up for other ways to get involved with this because there is a lot of work to be done. If you’re interested, contact either LCDR Jessica Kreger or LCDR Rinku Patel and we can get you plugged in to the meetings being held every other week. We’re reviewing which public health issues we would like the delegates to make policies on for this upcoming year. What happens is APhA puts forward policies and once they are passed, these are the items that are worked on for that year. You will see articles, marketing, and a lot of energy contributed to those focus areas. Examples of past areas of focus have been antibiotic stewardship, maternal health, medication adherence, and emergency preparedness.
  - The Boy Scouts have created a new patch, it’s called “SCOUTStrong Be MedWise” and it’s for responsible use of medicine. The Boy Scouts will be coming out to Washington D.C. at the end of February and we’ll be working with the Surgeon General’s Office to prepare for that visit, which will involve a media event. Keep this event in mind, more information will be forthcoming.
  - Several pharmacy officers have been working on projects last year and, starting next month, they will be joining us to give mini TED talks and sharing their work and providing action items.

- Being a leader and manager never ends, it requires continual improvement. We always need to look for things that work to get where we’re trying to go. An article called “What Amazing Bosses Do Differently,” focuses on the importance of recognizing that employees are unique. I have learned through experience that different things motivate different people. On this flip side of things, if you’re not a manager, think about what motivates you and try to tune into what motivates the people around you. This could help you down the road to be an amazing manager.

Questions/Comments:
  - The Boy Scout initiative sounds great.
  - Kudos to the high level of interest of officers submitting abstracts this year.
  - Think about professional contacts that may be able to add value either as a participant or sponsors at the upcoming COA conference. If you have recommendations, please send them to Jminor101422@gmail.com.
  - Update on conversion to the Coast Guard pay system: There have been rumblings of delays, however when I receive official word I will share this with everyone. Others on the call substantiated this rumor but we are still technically waiting for official word.

- Questions/Comments:
  - The paternity leave component is relatively new.

ASHP Midyear Meeting Update – CDR Chris Jones and CDR Aaron Middlekauff

- Presentation slides attached.
- Questions/Comments:
  - The current understanding is that if someone is registered for the conference, they should be able to attend the federal forum. This includes students.
  - RAMD Schweitzer will be attending on Sunday.

Thank you to everyone that makes this program a continued success. If anyone has questions, they can email pharmpacreadiness@fda.hhs.gov.

Year-end reminders:
- Direct Access will be shutting down 17-DEC-2015 at midnight. If you have an expired BLS or need to submit an APFT, please submit before the shutdown.
- Flu-shot submissions have been dramatic; please give Medical Affairs an opportunity to update the information. If it is still not updated by 15-DEC-2015, you can consider giving them a call. The number is available on the CCMIS page. Everything is expected to be entered by 31-DEC-2015. It’s advised to keep a copy of the fax confirmation.

New APFT Standards will take effect 1-JAN-2016 and the President’s Challenge option is now eliminated. There are new exercise options that will include an elliptical, stationary bike, and plank option. There is also a new flexibility component involving a seated toe touch. There are new evidence based standards that officers can read about and we are aligning ourselves with other uniformed services with regard to scoring.

Questions/Comments:
- Should we be faxing the APFT results to our eOPF? No, we are not currently faxing AFPT results, but you do need to enter it into Direct Access. The officer is responsible for keeping a copy of your APFT results in case an audit occurs.
- The new scoring system will be an average of the cardiorespiratory endurance, upper body endurance, and core endurance components. The specific scoring can be found at the website link above.
- How do we anticipate the new APFT will impact the PACE awards? Since the President’s Challenge option has been removed, we may see an initial decrease in PACE Awards since there will no longer be a PACE Award for first APFT completed, however it’s hopeful that PACE Awards will increase as officer awareness increases.

Chair-Elect Update: LCDR Rodney Waite

Thank you all for being our eyes on website update issues. We have many pages on CCMIS; I and CDR Jerome Lee are currently going through to catalog the last time each page has been updated and how often the pages have been visited. If you see glaring errors, please send to LCDR Waite at rcwaite@bop.gov. We may get rid of some of the pages; if you have suggestions about what information you’re often in need of or how it’s presented, you can bring it to LCDR Waite’s attention. Headquarters has done a lot on the front pages of CCMIS that makes some of the pages duplicative.

We’re in the process of developing a system to allow for more rapid update of the websites. Part of this has been the creation of a 508 compliance workgroup. If you’re unfamiliar with 508 compliance
and you’re involved in document and/or presentation creation, it’s recommended you learn about it. It’s a way of making documents accessible for individuals with sensory issues (auditory, visual, etc.).

- If anyone on the call or you know anyone with website content management experience, have them contact LCDR Waite. We may expand the pool of content managers to decrease the turnaround time for website updates.
- If you use social media, make sure you like our Facebook pages. We also have pages on Twitter and Instagram which can be good resources pertinent to PHS Pharmacy.

**Chair Update and Old/New Business: CAPT Aaron Sigler**

- People are always asking of ways to get involved, I hope it’s becoming clear that there are always ways to get involved through various workgroups, whether it’s 508 or content managers.
- Just a final reminder to get all your relevant documents such as CV, Officer Statement, and CE forms to your eOPF if you’re up for promotion or not.
- Happy Holidays! If you’re traveling, be safe. We’ll see everyone in January.
The next PharmPAC General Meeting begins at
1300 EST Thursday, 7-JAN-2016
Agenda and teleconference information will be distributed prior to the meeting.

Respectfully Submitted,

CAPT Aaron Sigler     LCDR Kevin Herkenham
PharmPAC Chair     Executive Secretary

Introducing the USPHS Resource Guide for Expectant Parents

Presented By:
The Commissioned Corps Women’s Issues Advisory Board (CCWIAB)
Introduction

• Developed by the Commissioned Corps Women’s Issues Advisory Board (CCWIAB)

• An unofficial guide designed to assist expectant parents in the USPHS in navigating and understanding the various policies and resources relevant to pregnancy, postpartum, and parenthood
Pregnancy Checklist

- Establish care with a healthcare provider in accordance with TRICARE procedures
- Check your basic readiness status
- Consider applying for a time-limited waiver
- Purchase a maternity uniform
- Prepare for maternity leave
Postpartum Checklist

- Enroll your child into DEERS
- Enroll your child in TRICARE
- Add child to dependency certification
- Consider other insurance options, including life and dental insurance
- Add to application Cost of Living Adjustment (COLA) forms if necessary
- Prepare for your return to duty
Fathers

• Paternity leave is non-chargeable leave not to exceed 10 consecutive days.
  – Must be taken consecutively and within 45 days after the birth of the child
  – May be used in conjunction with annual leave
• It is authorized for married Corps officers on active duty.
• Reference: *Leave of Absence; General* (CC361.01) – Effective 16 February 2012
Adoptive Parents

• Officers are authorized up to 21 days of non-chargeable leave.

• Corps officers may be eligible for reimbursement of adoption costs up to $2,000/child.
Infertility

- Officers and dependents who experience infertility have limited options through TRICARE.

- Assisted Reproductive Technology (ART) Institute of Washington (Walter Reed NMMC, Bethesda, MD) offers IVF and cryopreservation of embryos for active duty/spouse at significantly reduced costs ($4,800-$7,000/cycle).
